PROFILE

I am very passionate about my work. I keep a close eye on the JavaScript ecosystem, reading articles and constantly working on self-improvement. On a day-to-day basis, I am deeply committed to my work and always want to find the best solution. If I had to describe myself, I would use the words pragmatic and hardworking.

I definitely enjoy teamwork and communicate well with others. I am also well organized. I enjoy sharing my knowledge with others.

WORK EXPERIENCE

Frontend Developer

BigPicture by Appfire previously SoftwarePlant April 2019 - now (4 years)

- I am involved in the development of the Gantt module, which was built from the ground up to be the most important and profitable module in the company.
- I provided most of the features for this module. I also provided help and encouragement to my junior colleagues.
- Working mostly in Polish, with the exception of providing technical assistance for customer support calls.
- Work with a team of 3 to 5 developers. Work in close collaboration.
- Close collaboration with backend team (creating API contracts between backend and frontend) and module maintenance.
- Work closely with UX and Figma.
- Work in Agile methodology.

- Tech-stack: Angular, Typescript, Rxjs, Tailwind, Cypress, Jest

Junior Angular Developer

ValueAdd April 2018 - April 2019 (1 year)

- Worked in a small team of max 3 developers.
- Mainly in Polish language with direct contact with clients in English.
- Worked with backend developers (internal and external, it depends on the project), mainly on maintenance and changes for new features.

- Tech-stack: Angular, Typescript, Rxjs, NgRx, Angular Material, SASS, BEM
